

**Agenda for M&I Water Shortage Policy Workshop  
March 9, 2001**

**I. Non-CVP Supplies**

- A. One for one credit for non-CVP supplies
- B. Use of non-CVP supplies must “benefit CVP as a whole”
- C. USBR approval of credit of non-CVP use in advance
- D. After-the-fact approval of use of non-CVP water as credit
- E. What water is considered as a credit, i.e. well, recycled, etc.

**II. Historic Use and Adjustments**

- A. Higher historical calculate during last 3 years unaffected by water shortages  
Agree to a base historical use in contractor negotiation, modify as necessary
- B. Wet year versus dry year
- C. Contra Cost's current contract definition for determining historic use

**III. Needs Analysis**

- A. Why was need analysis attached to policy if not used
- B. Friant contractors and Tuloume Utilities District not included in needs analysis
- C. Plain View needs analysis modified incorrectly

**IV. Health and Safety**

Concept of deliveries below 75% and health and safety needs severed

**V. Standards for Health and Safety**

- A. Before contractors declare emergency public health and safety consult with USBR
- B. Review criteria of similarly situated California M&I entities.
- C. Provide additional deliveries beyond public health and safety if available.

**VI. Extraordinary Conservation Measures**

Measured against BMPs of California Urban Water Conservation Council.

**VII. Definition of Shortage**

Article 12

**VIII. Forecasting Shortage**

- A. No reduction for M&I water below 90% until June 15
- B. Reduce availability prospective basis not retroactive for remainder of year

**IX. 1994 Date Limiting Applicability of Reliability**

- A. Unreasonable to limit reliability of for M&I on an arbitrary date (September 1994)
- B. Discriminates against water contractors that were predominately ag
- C. Costa bill

**X. Operational Constraints the Lead to Different Allocations**

Policy provides for allocations to differ by divisions. Establish operational criteria

**XI. No Analysis of Impact to Ag Contractors**

- A. Redraft policy so no impact to ag except for public health and safety
- B. M&I contractors can pursue other water programs such as reallocation agreements

**XII. Language Changes**
